

Fabric solutions for the Automotive industry

Sefar has a wide range of filtration media and highly industrialized fabrication capabilities.

Product Features

Material features

Inherent to our synthetic materials are:

- Good fatigue properties compared to metal mesh
- Easy to handle and no sharp edges
- High strength and tear resistance
- Non-shedding properties

Closed mesh fabric

Depth filter material

High precision and

Highly efficient

Highly efficient

- reliable mesh opening
- Low pressure drop
- Various surfacemodificationsavailable
- High performance
 polymers for extreme
 and harsh conditions
- Open mesh fabrics

- particle retention
- High throughput
- Excellent surface properties
- particle retention
- Low pressure drop
- Resistant to corrosioncaused by fuels and
- Maximized filtration

blends

area

State-of-the-art bonding technology

Fabrication & Converting Solutions
